Exhibition review: BAUMA 2019
Bauma 2019 took place in April. Compared to the last event in 2016 - in which DÜCHTING participated for the first time as a sub-exhibitor - the number of visitors increased by about 40,000. More than 250,000 visitors came from abroad.
With over 620,000 visitors from more than 200 countries, Bauma 2019, the world's leading trade fair for construction machinery, building material machines, mining equipment, construction vehicles and equipment, has achieved the best result in its 65-year history.
With around 3,700 exhibitors from 63 countries, a new record was also achieved on the exhibitor side.

WATER

CASE STUDY: HPH 100-222X5 DSS FOR WATER INJECTION – ONSHORE OILFIELD IN TURKEY

Our client in Turkey produces 9000 BOPD (Barrels oil per day) on an on Shore field in Diyarbakir in Turkey. There are 90 wells but they have a BSW of 97%, that means that well produce 97% salt water and 3% oil.

All this water needs to be reinjected in reservoirs to maintain pressure inside, there is no water treatment to do.
Therefore in 2017 and 2018 they purchased 6 HPH pumps + 1 bare shaft as a spare part.

Due to the fact that there were slurries in the water, DÜCHTING designed a specific seal with Silicon carbide faces and springs outside of the liquid.

Yet, 5 units run perfectly for 11 months the oldest, number 6 will start soon.

Other HP DÜCHTING pumps are installed in Congo and Cameroon for the same Service.

Advantage of HP pumps face to usual competition: Those pumps are very long and available place is precious on Off shore. DÜCHTING pumps save 50% of space according to competition.

INTERNALS

On-going education at DÜCHTING

In 2014 DÜCHTING started to offer apprenticeships again, after 20 years not having trainees.

Currently we have an apprentice for cutting machine operator in his first year and another youngster started in August.

Together with the educational partner "KarriereWERKSTATT" we will train a DÜCHTING-member in the making, for a common future.

As a cutting machine operator at DÜCHTING you'll have the opportunity to help create goods and products and handle tools.

CHANGES & INNOVATIONS

Social media is a huge part of online marketing these days and it not just affects our private lives but also our business communication.

DÜCHTING on LinkedIn since 2017

LinkedIn is an American business and employment-oriented service that operates via websites and mobile apps. Founded on December 28, 2002, and launched on May 5, 2003, it is mainly used for professional networking, including employers posting jobs and job seekers posting their CVs. As of June 2019, LinkedIn had 630 million registered members in 200 countries.

DÜCHTING on YOUTUBE

All of DÜCHTINGs videos can be found on Youtube.
YouTube is an American video-sharing website headquartered in San Bruno, California.
YouTube allows users to upload, view, rate, share, add to playlists, report, comment on videos, and subscribe to other users. It offers a wide variety of user-generated and corporate media videos.

DÜCHTING on FACEBOOK

Our newest social media page is Facebook. We wanted to enlarge our network to communicate with clients and partners all over the world through several platforms.

We look forward to be conneted with you.

EVENTS

Educational exhibition - Searching for new crew members and future DÜCHTING employees

For the 3rd time, DÜCHTING participateed at a local educational fair. Our apprentices represented DÜCHTING along with the contacts at our booth.

Together they answered all possible questions from technology-oriented adolescents according a future career at DÜCHTING PUMPEN.

EVENTS & DATES

BAUMA 2019 Review

DÜCHTING and it's brand HABERMANN Suction Dredgers by DÜCHTING, looks back on a week full of exciting impressions. Interesting contacts, the personal meetings with our long-standing customers and companions, have made the bauma once again a great event.

Many new, interesting and international projects from various branches of DÜCHTING (Suction dredger, Mining, Industry) are now waiting to be handled and we are happy to approach these together with you.

We thank all our visitors for the time at our stand and look forward to the bauma 2022, which takes place from 4 to 10 April.

DP PARTNER NEWS

Green Pioneer - Vietnam

Together with our Vietnamese partner Green Pioneer we are proud to present the following case.
For Apatite Vietnam Corporation, DÜCHTING replaced 2 slurry pumps. The pumps (MC250-400 and MC200-355) are running well for almost 2000 hours in apatite slurry.

The customer expects that the pumps will run at least 7000 hours without any problem. Afterwards, they will place more orders for DÜCHTING pumps to replace existing pumps.

Green Pioneer Ltd is a professional and experienced trading and engineering company in Vietnam supplying pumps & industrial equipment for different industries: pulp and paper, mining, steel & metal, power/renewable energy, chemical & fertilizer, food & beverage, electronics, textile, water.
With offices in Hanoi and HCMC City, Green Pioneer can serve all customers throughout Northern and Southern of Vietnam.
